

BIU Brain Research Center
 Departmental Colloquium Semester Bet, 2019

February 25	Prof. Nathaniel Daw, Dept. of Psychology and Princeton Neuroscience Inst. Princeton Univ. Action evaluation, planning and replay
March 4	Dr. Yossi Mandel. School of Optometry and Vision Science, and Brain Research Center, BIU TBA
March 11	Prof. Yonatan Loewenstein, ELSC, HUJI, TBA
March 18	Prof. Carolina Rezaval, School of Biosciences, University of Birmingham: How does the brain make decisions when faced with conflicting options?
March 25	Prof. Bruno Averbeck, US National Institute of Mental Health Neural systems underlying reinforcement learning
April 1	Prof. Ophir Donchin, Dept. of Biomedical Engineering and Zlotowsky Center for Neuroscience. TBA
April 8	TBA
April 15	Pesach vacation
April 22	Pesach vacation
April 29	Dr. Shachar Kvatinisky, Dept. of Electrical Engineering, Technion Memristors for Artificial Intelligence
May 6	Dr. Avraham Ashkenazi, Dept. of Cell and Developmental Biology, Faculty of Medicine, TAU Autophagy and polyglutamine diseases : mechanisms and future directions
May 13	Dr. Ben Maoz, Faculty of Engineering, TAU Organs-On-a-Chip: A New Tool for the Study of Human Physiology
May 20	Dr. Roy Salomon, Brain Research Center, BIU, TBA
May 27	Dr. Shai Berlin, Engineering of Neural Systems, Technion Synthetic optogenetics and NMDARs.
June 3	Prof. Edward Stern, Brain Research Center, BIU, TBA
June 10	Shavuot Vacation
June 17	Prof. Micha Spira, Dept. of Neurobiology, HUJI TBA
